## PROFESSIONAL SUMMARY

---

Full-Stack MERN Developer with 1 year of dedicated training, hands-on production exposure at Accenture, and 3 independently built projects including an AI-powered interview analyzer, a deployed e-commerce platform, and a live React portfolio. Contributed to a real internal tool at Accenture — debugging a Mongoose schema issue and building UI features within a live codebase. Certified in MERN Stack development (RST Forum, 2025). Proficient in React, Node.js, Express.js, MongoDB, Redux, REST APIs, and Google Gemini API integration. A deliberate career switcher with the discipline, problem-solving mindset, and full-stack fundamentals to contribute from day one.

## TECHNICAL SKILLS

---

**Languages & Frameworks:** JavaScript, React.js, Redux, Node.js, Express.js, HTML5, CSS3, Tailwind CSS

**Database & Tools:** MongoDB, REST APIs, Git, GitHub, Digital Ocean (deployment)

**Workflow:** Agile/Scrum, Component-Based Architecture, RESTful API Design

## PROJECTS

---

**GenAI Interview Analyzer** | [github.com/Bala-newforthis](https://github.com/Bala-newforthis) | *Full-Stack · AI-Powered*

*React · JavaScript · HTML · SCSS · Express.js · Redux · Google Gemini API · REST API*

- Engineered a full-stack AI-powered interview preparation tool that analyzes user profiles and generates personalized interview insights using the Google Gemini API.
- Built a responsive React frontend with SCSS styling, Redux for global state management, and REST API integration to communicate with the Express.js backend.
- Designed and implemented backend routes and middleware using Express.js to handle AI processing requests, user data, and API communication securely.
- Integrated an AI-driven resume builder feature that generates a tailored resume based on user profile data and enables one-click PDF download.
- Architected the full system independently — frontend UI, backend logic, AI integration, and data flow — demonstrating end-to-end product ownership.

**RstStore — Full-Stack E-Commerce Platform** | [github.com/Bala-newforthis/RstStore](https://github.com/Bala-newforthis/RstStore)

*MongoDB · Express.js · React · Node.js · Redux · JWT | Deployed on Digital Ocean*

- Built a production-ready e-commerce platform with product catalog, shopping cart, order management, and JWT-based user authentication from scratch.
- Designed RESTful APIs with Express.js and Node.js; architected MongoDB schemas for users, products, and transactions to support scalable data operations.
- Implemented Redux for centralized state management across all application modules, reducing prop-drilling and improving maintainability.
- Deployed the full-stack application to Digital Ocean, gaining hands-on experience with live server configuration and production environment setup.

**Personal Developer Portfolio** | [bala-portfolio-rho.vercel.app](https://bala-portfolio-rho.vercel.app)

*React · JavaScript · HTML · CSS · Tailwind CSS | Deployed on Vercel*

- Designed and built a fully responsive personal portfolio site using React, showcasing projects, skills, and contact information with smooth UI interactions.
- Implemented component-based architecture with reusable React components, clean routing, and a contact form for direct visitor engagement.

- Deployed on Vercel with optimized build configuration, achieving fast load times and mobile-first responsive design across all screen sizes.

## PROFESSIONAL EXPERIENCE

---

**Trust & Safety Associate** | **Accenture · Full-time** | Mar 2022 – May 2025 · 3 yrs 3 mos

Mumbai, Maharashtra, India · Remote

- Reviewed and classified high volumes of media content daily to filter harmful material, maintaining platform safety and compliance standards at scale.
- Contributed to an internal job verification and dispute management tool — built semantic UI pages and added new features using HTML, CSS, and JavaScript within a live codebase.
- Diagnosed and resolved a critical bug where valid job IDs were not being detected — traced the root cause to a Mongoose schema mismatch, updated the schema, and verified the fix restored accurate job ID detection.
- Participated in Agile sprint planning and daily stand-ups, consistently delivering assigned tasks within sprint deadlines.
- Consistently met AHT/NHT performance targets, maintaining high accuracy scores across all review cycles.

**Freelance Event Coordinator** | **Self-Employed** | Jul 2019 – Feb 2022 · (with breaks)

Mumbai, Maharashtra, India

- Independently managed end-to-end coordination for events during career transition periods, handling logistics, vendor communication, and on-ground execution.

**Executive Researcher** | **Gega MarTech** | Jan 2020 – Apr 2020 · 4 mos

- Identified high-value IT prospects and compiled targeted lead lists to support the business development pipeline.
- Managed outreach via email and LinkedIn campaigns, contributing to consistent lead generation for the sales team.

**Marketing Researcher** | **Rexus Group** | Sep 2016 – Jun 2019 · 2 yrs 10 mos

Mumbai Metropolitan Region

- Identified IT service companies as potential clients using LinkedIn and business directories, compiling verified contact databases to support client acquisition.
- Delivered consistent lead generation output to senior business development teams across nearly 3 years.

## EDUCATION & CERTIFICATIONS

---

**Bachelor of Science in Information Technology** | *University of Mumbai* | 2019

Relevant Coursework: JavaScript, Node.js, React, MongoDB

**MERN Stack Certification** | *RST Forum* | 2025
