

BALAJI MURUGAN REDDY

Full-Stack MERN Developer | AI Integration | React · Node.js · MongoDB · Express.js

+91 8657103384 · balajireddy.m6@gmail.com · Kurla West, Mumbai - 400072 · github.com/Bala-newforthis · bala-portfolio-rho.vercel.app

PROFESSIONAL SUMMARY

Full-Stack MERN Developer with 6 months of hands-on experience, a MERN Stack certification (RST Forum, 2025), and 6+ years of prior professional experience in research and data operations.

Built 3 fully deployed projects end-to-end — an AI-powered interview analyzer (Google Gemini AI), a live e-commerce platform (Digital Ocean), and a React portfolio — independently covering frontend, backend, AI integration, and DevOps.

Targeting a junior MERN/full-stack developer role to contribute production-ready React and Node.js code from day one.

PROJECTS

GenAI Interview Analyzer *React · JavaScript · SCSS · Express.js · Redux · Google Gemini AI · REST API*

github.com/Bala-newforthis | *Full-Stack · AI-Powered · Independently Built*

- **Engineered a full-stack AI interview preparation tool** that analyzes user profiles across 5+ dimensions and generates personalized interview insights using Google Gemini AI in under 3 seconds.
- **Built a responsive React frontend** with SCSS styling and Redux managing 8+ global state slices, integrated with an Express.js backend via REST API.
- **Designed 6+ secure backend routes and middleware** in Express.js to handle AI processing requests, user data, and Gemini API communication.
- **Integrated an AI-driven resume builder** that auto-generates a tailored resume from profile data with one-click PDF download, cutting manual formatting time from 30+ minutes to zero.
- **Architected the complete system independently** — frontend UI, backend logic, AI integration, and data flow — delivering full end-to-end product ownership.

RstStore — Full-Stack E-Commerce Platform *MongoDB · Express.js · React · Node.js · Redux · JWT*

github.com/Bala-newforthis/RstStore | *Deployed on Digital Ocean*

- **Built a production-ready e-commerce platform from scratch** covering 4 core user flows — product catalog, shopping cart, order management, and JWT-based authentication — on a live server.
- **Designed 12+ RESTful API endpoints** with Express.js and Node.js; architected MongoDB schemas for 3 collections (users, products, transactions) for scalable data operations.
- **Centralized application state with Redux** across 10+ components, eliminating prop-drilling and reducing inter-component data issues.
- **Deployed to Digital Ocean VPS independently**, configuring the live server environment, environment variables, and production build settings from scratch.

Personal Developer Portfolio *React · JavaScript · HTML · CSS · Tailwind CSS*

bala-portfolio-rho.vercel.app | *Deployed on Vercel*

- **Built a fully responsive, mobile-first React portfolio** with 5+ reusable components, clean routing, and a functional contact form — optimized for fast load times across all screen sizes.
- **Deployed on Vercel** with production build configuration for consistent cross-device performance.

PROFESSIONAL EXPERIENCE

Trust & Safety Associate | **Accenture**

Mumbai, Maharashtra · Full-time · Remote | 3 yrs 3 mos

Mar 2022 – May 2025

- **Contributed to a live internal job verification and dispute management tool** — built 3 semantic UI pages and added feature enhancements using HTML, CSS, and JavaScript within an active enterprise codebase.
- **Diagnosed and resolved a critical Mongoose schema bug** where valid job IDs were not being detected — traced root cause, patched the schema, and restored 100% job ID detection accuracy.
- **Reviewed and classified high volumes of media content daily**, maintaining platform safety and compliance standards at scale with consistently high accuracy scores.
- **Participated in Agile sprint planning and daily stand-ups**, consistently delivering assigned tasks within sprint deadlines across 3+ years.

Executive Researcher | Gega MarTech

Jan 2020 – Apr 2020

Mumbai | 4 months

- **Identified 50+ high-value IT prospects per week** and managed email and LinkedIn outreach campaigns contributing to consistent pipeline growth.

Marketing Researcher | Rexus Group Pvt. Limited

Sep 2016 – Jun 2019

Mumbai Metropolitan Region | 2 yrs 10 mos

- **Identified IT service companies as potential clients** using LinkedIn and business directories — compiled verified contact databases supporting client acquisition across nearly 3 years.
- **Delivered consistent lead generation output** to senior business development teams, building strong research, data management, and structured outreach skills.

Freelance Event Manager | Self-Employed

Jul 2019 – Feb 2022

Mumbai, Maharashtra

- **Independently managed end-to-end event coordination** handling logistics, vendor communication, and on-ground execution.

TECHNICAL SKILLS

Frontend	React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SCSS, Redux, React Native
Backend	Node.js, Express.js, REST API Design, JWT Authentication, Middleware
Database	MongoDB, Mongoose ODM, MongoDB Atlas, Schema Design
AI / APIs	Google Gemini AI, Prompt Engineering, AI Feature Integration, Axios
Tools	Git, GitHub, Vite, Puppeteer, Digital Ocean (VPS), Vercel

EDUCATION & CERTIFICATIONS

Bachelor of Science in Information Technology (B.Sc. IT) Lords Universal College, University of Mumbai	2019
Higher Secondary Certificate (HSC) Karthika High School & Jr. College, Mumbai	2014
Secondary School Certificate (SSC) Karthika High School & Jr. College, Mumbai	2012
MERN Stack Development Certification RST Forum, Mumbai	2025
