PROFESSIONAL SUMMARY

Full-Stack MERN Developer currently building production applications at Save As Web, with a MERN Stack certification (RST Forum, 2025) and prior professional experience in research and data operations. Independently delivered 3 end-to-end projects — an AI-powered interview analyzer (Google Gemini AI), a live e-commerce platform (Digital Ocean), and a React portfolio — spanning frontend, backend, AI integration, and DevOps.

PROJECTS

GenAI Interview Analyzer *React, SCSS, Express.js, Redux, Google Gemini AI, REST API*

- **Engineered a full-stack AI interview tool** that analyzes user profiles across 5+ dimensions and generates personalized insights using Google Gemini AI in under 3 seconds.
- **Built a responsive React frontend** with Redux managing 8+ global state slices, integrated with an Express.js backend via REST API.
- **Integrated an AI-driven resume builder** that auto-generates a tailored resume with one-click PDF download, cutting manual formatting time to zero.

RstStore — Full-Stack E-Commerce Platform *MongoDB, Express, React, Node.js, Redux, JWT, Digital Ocean*

- **Built a production-ready e-commerce platform** covering product catalog, cart, order management, and JWT-based authentication on a live server.
- **Designed 12+ RESTful API endpoints** with Express.js and Node.js; architected MongoDB schemas for 3 collections for scalable data operations.
- **Deployed to Digital Ocean VPS independently**, configuring the live server environment and production build settings from scratch.

Personal Developer Portfolio *React, Tailwind CSS | Deployed on Vercel*

- **Built and deployed a fully responsive, mobile-first React portfolio** with 5+ reusable components, clean routing, and a functional contact form.

PROFESSIONAL EXPERIENCE

Full Stack Developer (MERN) | [Save As Web](#)

Jun 2026 – Present

Mumbai, Maharashtra | Full-time

- **Developed and maintained full-stack web applications** using MongoDB, Express.js, React, and Node.js as part of the core development team.
- **Created an AI-powered chatbot** to enhance user interaction and automate query handling within the application.
- **Built RESTful APIs** and integrated front-end interfaces with back-end services for smooth data flow.

Trust & Safety Associate | [Accenture](#)

Mar 2022 – May 2025

Mumbai, Maharashtra | Full-time | Remote | 3 yrs 3 mos

- **Diagnosed and resolved a critical Mongoose schema bug** where valid job IDs were not being detected — traced root cause, patched the schema, and restored 100% detection accuracy.
- **Contributed to a live internal job verification tool**, building 3 semantic UI pages and feature enhancements using HTML, CSS, and JavaScript within an active enterprise codebase.

Additional Experience | [Research & Business Development](#)

- **Executive Researcher, Gega MarTech** (Jan–Apr 2020): Identified 50+ high-value IT prospects weekly via email and LinkedIn outreach.
